

### Summer Internship Project (SIP)

After the strict discipline of the first-year compulsory courses, students are thrown into the practical world of decision-making and business management in the Summer Internship Project (SIP). Spanning eight weeks, the SIP is selected according to the chosen specialisation of the students. They are assigned specific tasks which use the managerial concepts they have learned, in a practical environment. After understanding the student's abilities and aspirations thoroughly, specific projects are assigned to each in conjunction with the companies concerned.
